# E-06, E-19 AND E-50

## HEAT-SHRINK UNDER INSULATION END SEAL KITS 🚭

These end seal kits are designed for the termination of nVent RAYCHEM'S industrial heating cables.

The nVent RAYCHEM E-06 is designed for use with BTV- and QTVR heating cables, the nVent RAYCHEM E-19 is designed for use with XTV- and KTV heating cables, and the nVent RAYCHEM E-50 is for use with VPL heating cables. All kits are approved for use in hazardous areas.

The end seal kits E-06 and E-19 employ easy to use heat-shrinkable tubing with an adhesive, that when heated forms a semi-flexible moisture proof encapsulation. The end seal kit E-50 employs high temperature heat-shrinkable tubing with a plastic melt liner that when heated forms a semi-flexible moisture proof encapsulation. Due to the low profile design the finished termination can be installed directly on the pipe.

One end seal kit is required for each termination.

#### **APPLICATION**

E-06	E-19	E-50	
End seal for BTV and QTVR self-regulating heating cables	End seal for XTV and KTV self-regulating heating cables	End seal for VPL power-limiting heating cables	
KIT CONTENTS			
Heat-shrinkable Adhesive coated sleeves Installation instruction	Heat-shrinkable sleeves Adhesive liners Installation instruction	Heat-shrinkable sleeves Installation instruction	

#### **APPROVALS**

ATEX certified by Baseefa and PTB

Ex tD A21 IP66

The temperature class depends on the design and the type of heating cable the end seal is used with

DNV Certificate No. DNV-GL TAE00000TU (E-06)

DNV Certificate No. DNV-GL TAE00000TV (E-19)

RU C-BE.ИM43.B.01712
